

Device Events

You can view a list of device events via the *Device Events* menu option. This allows you to determine which device sent a message at a specific time.

The screenshot displays the 'Device Events Report' interface. At the top, there are buttons for 'Save Configuration', 'Reset Search', and filters for 'Today', 'Yesterday', 'Last week', and 'Run'. Below these are search and filter dropdowns for 'From', 'To', 'Device', 'Event type', 'Client', 'Error', and 'Status'. The main area contains a table with the following data:

Device	Event type	Date	Time	Error	Client	Status	Status Info
Demogerät 9800	Connection Status	03/24/2026	12:19:40	no error	WEBMANDANT	Online	
Demogerät 9800	Status	03/24/2026	12:43:24	no error	WEBMANDANT	Online	000000000
Demogerät 9800	Status	03/24/2026	13:43:25	no error	WEBMANDANT	Online	000000000
Demogerät 9800	Firmware Version	03/24/2026	13:43:32	no error	WEBMANDANT	Online	739-01-X-K03 57980210...
Demogerät 9800	Connection Status	03/24/2026	14:23:59	no error	WEBMANDANT	Offline	

At the bottom left, it indicates 'Number of records: 5'. The browser tabs at the bottom show 'Launchpad' and 'Device Events Report'.

Creating the report

- Specify the time period for which you want to generate the report (*From* - *To*). Or press *Today*, *Yesterday* or *Last week* to quickly generate a report for the corresponding period.
- (Optional) Use the additional fields to narrow the report.
- Press *Run* to start the report.

Further options with the report

- **Select columns to display:** Press the gear icon. Select which columns you want to display and in which order. Arrange the columns using the mouse or the arrow icons. Press *Apply* to adopt the changes.
- **Search in columns:** Enter text or numbers in the search field (magnifying glass icon) of a column to search for names, personnel numbers, or other criteria. The entries take effect immediately: the list only displays hits.
- **Export the entire list:** Press the download icon. Select the format in which you want to export the list. The export files are downloaded or displayed depending on the browser/operating system settings. For details on the available export formats, see the [General > Export Formats](#) chapter of this manual.
- **Save report:** For details on saving reports, see the chapter [General > Custom Reports](#).

Button *Reset Selection*

Press *Reset Selection* to reset all fields to their initial value.

Revision #1
