

# Settings

Use the menu item *Settings* to manage different layouts for badges.

## List of layouts

The list contains the layouts that have already been created. Select an entry to view details and a preview.

## Button *New*

Press *New* to create a new layout.

# Detail area

Specify the details for the selected layout.

- *Description*: Enter a descriptive label for the layout.
- *Upload new layout*: Press this button and select a suitable layout file on your computer.
- *Upload new Logo*: Press this button and select a suitable logo file on your computer.
- *Save*: Press this button to save changes.

You can find an example badge layout here: [SampleBadgePrintLayout.xml](#)

---

## TIPS

To create the layout, get in touch with your contact person at Drakos.
